

MAGIC POINT HEADER

A new way to display your images !!! Check out this new product , specially designed to improve the quality of your website by adding a new transition effect to better reflect your gallery . The new Magic Point Header can be easily customized: you can add up to 10 pictures (for now) , you can set up the panning and zooming effect , time of transition and much more trough a very easy to use interface.

1. GLOBAL SETTINGS

▼ Module Parameters	
Module Class Suffix	<input type="text"/>
SWFObject script	<input checked="" type="radio"/> Mode 1 <input type="radio"/> Mode 2 <input type="radio"/> Off
Global settings	
Width	<input type="text" value="590"/>
Height	<input type="text" value="300"/>
Text speed	<input type="text" value="5"/>
Text background color	<input type="text" value="#e30202"/>
Text background transparency	<input type="text" value="100"/>
Preloader color	<input type="text" value="#0900ff"/>
Show buttons	<input type="radio"/> Show <input checked="" type="radio"/> Hide
Autoplay	<input checked="" type="radio"/> Enable <input type="radio"/> Disable

Module Class Suffix - A suffix to be applied to the css class of the module (table.moduletable), this allows individual module styling

SWFObject script - Mode 1 will use a local copy. Mode 2 will use the file hosted by Google. Safe mode will switch to a safe embedding code

Width - Set up the global stage width, the actual width of the flash animation

Height - Set up the global stage height, the actual height of the flash animation

Text speed - Set up the speed (in seconds) for the description text that appears at the bottom of the slides

Text background color - Set the background color for the text description area

Text background transparency - Set the background transparency for the text area, 0 means fully transparent, 100 means no transparency at all

Preloader color - Set the color of the preloader

Show Buttons - Choose if you want to show or hide the navigation buttons

Autoplay - Choose if you want the slideshow to autoplay or if you want to navigate thru slides using the buttons
